\$3100

This is one of best cows on the place raising one of the most sought after calves each year. The plan would be to get a few more calves off her as cows like this are hard to find and harder to afford. She is over 1600 lbs. and will bring back most of the money selling by weight at the sale barn. A daughter sells below.

DOB 1/22/17 Due 2/7/25 Nat Sandridge Respect 1105

\$2700

I'm going to throw one in here as a commercial cow since she has a "Z" registration from not having the dams DNA on record. She just finished weaning off an excellent bull calf and pictured a week later. Brown, Larson, Beckton, and Bieber genetic greats along with Patricia Rose 102Y all in the pedigree. 1600 lbs.

\$3100

Another cow I was holding over that I do not want to let go of. Out of the #519 cow that has been so good. Her first calf had a leg stuck up in her pelvis that we and the vet struggled with. It took her longer to breed back causing her to fall outside my window. She is back on track and nursing a really nice heifer that I plan to keep, but could sell as a pair due to her age. Notice the OLC Echeta cow for those of you that can remember the maternal greats.
